First Aid/CPR

SATURDAY, APRIL 17, 2010

This comprehensive 8-hour course has been adapted for the construction industry. Not only will you learn how to provide first aid and CPR in emergencies, but also the skills and techniques you practice will help you:

- Stay calm in emergencies.
- Recognize the signs and symptoms of a heart attack.
- Help someone who is choking.
- Do the work of an unconscious person's heart and lungs until medical help arrives.
- Keep an injured person safe from further injury and as comfortable as possible until medical care can arrive.

Your family, friends, and fellow workers also will feel safe when they know that you have been trained in First Aid/CPR. Upon successful completion of this course, you will receive a First Aid/CPR card which is good for two years.

By taking this course you show your commitment to know what to do in an emergency. When you learn the information and skills presented in this course, you will be able to put your caring and concern for others into action.

*The Registration is Limited —
