Stormwater and Erosion Control BMP Field Academy Class

Thursday, August 5, 2010

This one day course will be hands-on field exercises for construction site BMPs. Students will install various control features. Control techniques and BMP installations will be selected for installation and execution. The BMP installations will then be subject to simulated precipitation events.

The Cost is

FREE

Class Location:

**CDOT'S OUTDOOR
Stormwater Management
Facility
4201 E. Arkansas Ave.
Denver, CO
(next to CDOT
Headquarters)**

Training Topics Include: Stabilization Methods for establishing vegetative cover: Seeding, Straw Mulching, Rolled Erosion Control products, and various sprayed applications. Sediment Entrapment Features: Ponds and Basins. Sediment Control BMPs: Straw Wattles, Silt Fencing, Straw Bales and Rock Bags. Check Dams: rock, bales and manufactured products.

Participants must have completed the CDOT Erosion Control Supervisor (ECS) course or equivalent prior to registration. Pre-registration and liability waivers are required. Cancellations must be made within 3 days of the class or you will not be allowed to attend any session for the next 1 year.
