

COLORADO CONTRACTORS ASSOCIATION MEETING MINUTES

EMERGING LEADERS COUNCIL STEERING COMMITTEE

December 1, 2017

Luke called the meeting to order. The November minutes were reviewed and passed.

Financials- Jordan will have Tony call Michael at AGC of Colorado regarding the outstanding FLF invoice. Sara updated the budget spreadsheet and will e-mail this document to everyone.

The table purchased for the Conference Banquet will be offered to the new members of ELC as well as Luke or Ted and their +1. \$2600 has been budgeted to cover the cost of food and AV at the 2018 Conference. A motion to approve the financial statements was made and passed.

Marketing- The next newsletter will go out in February. Jordan will put together a save the date card on the events for the year and send it out ASAP. The committee had a discussion on how to handle marketing going forward. Jordan can place the content into a template but will need someone to collect and/or produce all info. Lindsay Levato has expressed interest in this position and can work closely with Jessica. Matt nominated Lindsay to steering committee as co-marketing chair and the motion passed unanimously.

Community Service-

Betsy shared an update on the 7-20 memorial. A donation of several remaining items is still needed before the project can be wrapped up. Betsy will reach out to the Land Scaping Association, as well as the CCA members that offered to help. She will also call Co Barricade to see if they can make a sign thanking the donors.

Scott has taken the lead on the clothing drive. Jordan can start advertising as soon as she receives the write up. Someone from the steering committee will speak at the state of the association address re the ELC, as well as community service.

The Steering Committee will meet the 5th of January to finalize everything before the conference. Betsy will be prepared with 5 community outreach ideas on the 5th. The entire ELC will pick one of these ideas at the Annual meeting in January. Jordan will send out sign up for manning the ELC table at conference. Luke will Jeffco Action Center to see if they have bins we can use for collection.

Membership-

Application forms- Issac from Old Castle did not turn in nomination form to complete his application. The application for Patrick O'Brian from Colorado Barricade was reviewed and opened for discussion. The committee agreed that his nomination was glowing and that everyone he has worked with has wonderful things to say. A motion to accept Patrick was made and passed unanimously. Luke will reach out and welcome him.

Pending applications were discussed and Luke encouraged everyone to keep pushing to get those in.

Darren Jansen resigned from ELC but would like to fill the spot with Sarah Sanders with Castle Rock. Sarah needs to turn in an application. Luke will reach out to Darren to get the process started.

Chairman Report- Luke shared that he received great reviews on Tom Crannowitter and asked Jordan to share those with his team.

Luke, Sara, Matt and Jordan met with Terry regarding the ELC providing a scholarship or exploring another way to help with workforce development. Terry shared that there are several avenues- high school, collage, trade schools. Terry discourage a scholarship. The low hanging fruit is getting involved in the student chapters. Many of the students go to the vertical side because of the influence they receive.

Sara and Betsy reviewed the Transportation Girl program and discussed doing some similar or supporting this program.

Austin brought up the idea of finding someone that already works in the industry that could use a break or help taking the next step forward in their development. Matt discussed Terry's feedback on apprentice turnover.

The committee will summarize options, pick two at the next meeting and present them at conference. Matt, Luke, Sara and Betsy will work on getting those ideas organized.

Seeing no new business, a motion to adjourn was made and passed.
